

Dr. Carole Dennie

*Section Head, Cardiac and Thoracic Imaging
The Ottawa Hospital
Co-director, Cardiac Radiology and MRI
University of Ottawa Heart Institute
Professor of Radiology and Medicine
Faculty of Medicine - University of Ottawa*

Tuesday, March 2nd, 2021

6 pm

“Imaging of Pulmonary Hypertension and Chronic Pulmonary Embolism”

Objectives:

- List CT and MRI features of pulmonary hypertension (PH)
- Illustrate diseases that cause PH and have typical or suggestive imaging findings
- Describe imaging characteristics of chronic thromboembolic pulmonary hypertension (CTEPH)

“Cardiothoracic Manifestations of Connective Tissue Disease”

Date: Wednesday, March 3rd, 2021
Time: 7:30 am

Objectives:

- To list 2 cardiothoracic manifestations
 - Systemic sclerosis
 - Rheumatoid arthritis
 - Systemic lupus erythematosus
- To describe how cardiac MR shows promise in the investigation of patients with connective tissue disorders

“ Emerging Concepts in Acute Aortic Syndrome Imaging”

Date: Wednesday, March 3rd, 2021
Time: 12:00 pm

Objectives:

- Highlight the most appropriate CT imaging technique to identify acute aortic syndromes
- Discuss the CT appearance of the spectrum of acute aortic syndromes
- Emphasize the lesser known variants of acute aortic syndromes
